

Experience Care Close to Home

Texas Health Hospital Forney

First Acute-Care Hospital in Forney

Scheduled to open in the fall of 2027

Located adjacent to The Village at Gateway on Highway 80 at Reeder Road, the new hospital will be the first full-service acute care hospital in the city of Forney and will offer the full continuum of care to the growing community.

Hospital Services

The design of this new campus — every detail, every material, every decision made — reflects the local heritage of Forney and Texas Health's Mission to improve the health of the people in the communities we serve. The hospital plans to open with these services:

- Emergency Department
- Labor and Delivery
- Neonatal Intensive Care Unit (NICU)
- Cardiology and cardiology catheterization lab
- Robotic surgery
- Orthopedic care
- Medical and imaging services

Expanding Care Across Kaufman County

To better meet the community's increasing needs, Texas Health plans to invest significant financial resources into growing healthcare access points across Kaufman County. In addition to the hospital, this investment will provide additional primary care, urgent care, specialty care, and behavioral health services – comprehensive healthcare all right here at home.

Employment Opportunities

Feel free to look at the employment opportunities throughout the Texas Health network or sign up to be notified when jobs are posted by visiting **jobs.texashealth.org**

Join the Medical Staff
